

# Workshop on Time Series Analysis and Statistical for Official Statistics

## CALL FOR PAPERS

December 3-4, 2025 – OECD, Headquarters (Paris), France

INSEE and the OECD are organizing a workshop on time series analysis and for official statistics.

This workshop offers an opportunity for official statisticians, academics and researchers in economics and statistics to discuss policy applications emerging from new state-of-the-art analytical tools and techniques.

This year's workshop topic sessions include (but are not limited to), the following:

- **Time Series Analysis**
  - Seasonal adjustment
  - Nowcasting
  - Trend Cycle estimation and Turning point detection
  - Business Cycle estimation
  - Revision Analysis
  - Using new features of JDemetra version 3 and rjdverse R packages
  - Experiences in statistical offices, central banks and other institutions
  - Implementing AI tools

Please send your abstract (roughly 1 page long, maximum 2) to [anna.smyk@insee.fr](mailto:anna.smyk@insee.fr) and [emmanuelle.guidetti@oecd.org](mailto:emmanuelle.guidetti@oecd.org) before **September 15th 2025**.

The workshop will be hybrid (in presence and remote). Participation is free but **registration is compulsory**. For further information, please contact [virginie.elgrably@oecd.org](mailto:virginie.elgrably@oecd.org) or consult the OECD community page:

<https://one-communities.oecd.org/community/workshop-on-time-series-methods-for-official-statistics/SitePages/Home.aspx>

Key deadlines:

Abstract submission	15/09/2025
Notification of abstract acceptance	11/10/2025
Opening registration	15/11/2025
End of registration	04/12/2025
Paper submission	From 15/10/2025
Workshop	3 and 4/12/2025
